The School

ITAérea is the first business school worldwide specialized in airport and aeronautical management in terms of number of students, headquarters and professors and official Accredited Training Partner of ACI WORLD.

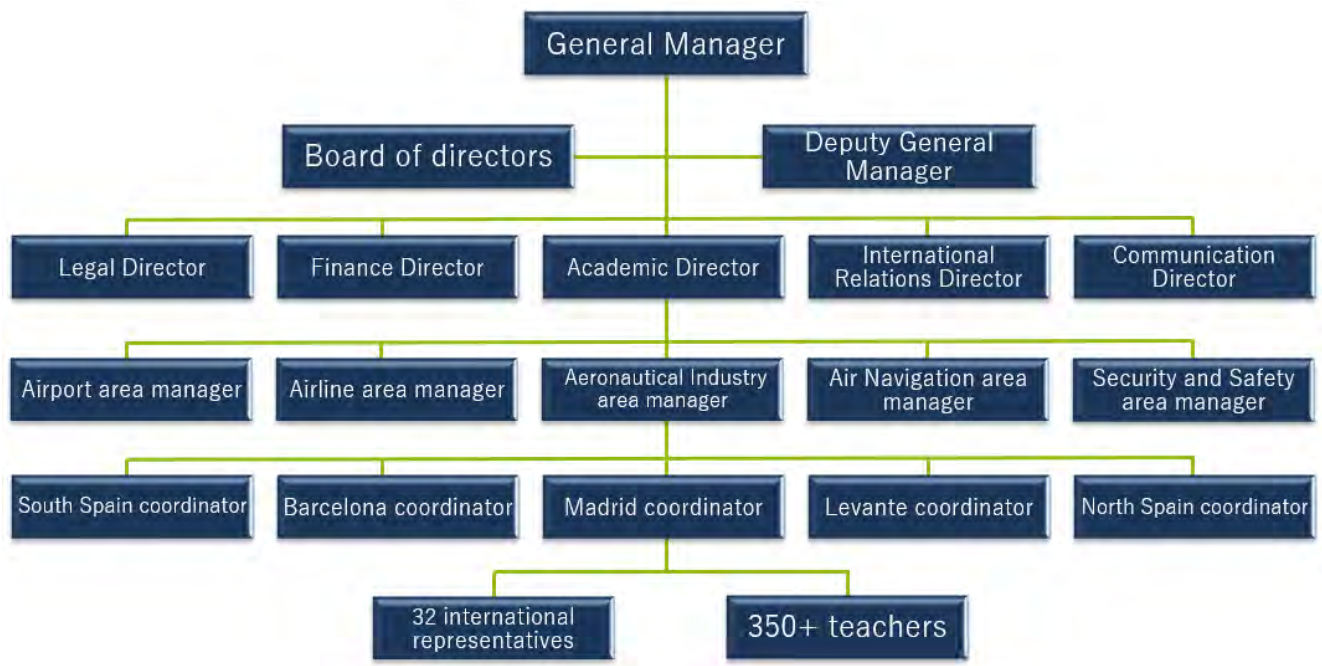

ITAérea is a strategic partner of the United Nations Institute for Training and Research (UNITAR) aiming to foster the development of training for worldwide managers of the air transport sector.

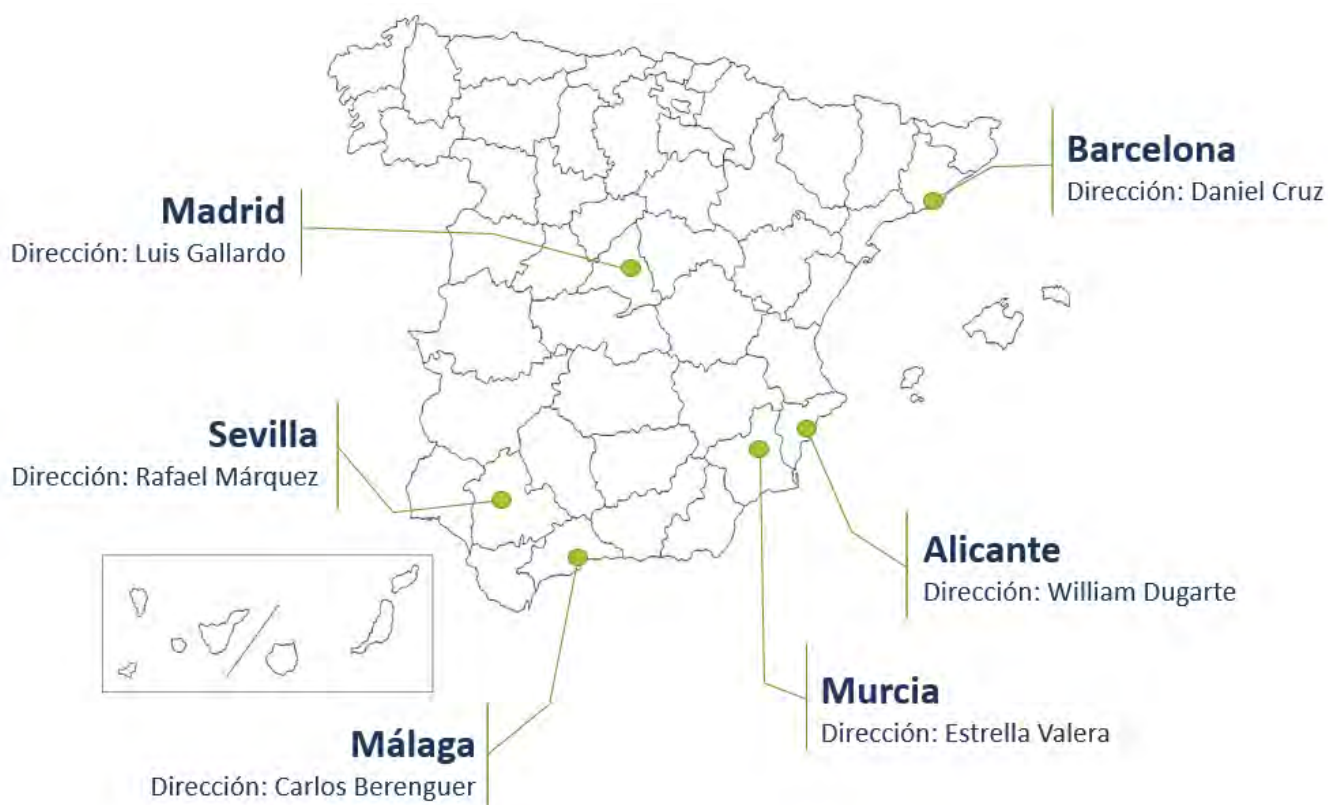

It is also the main training provider for managers in the Latin American Region of Airports Council International (ACI-LAC). ITAérea is also World Business Partner of the European Region of Airports Council International (ACI-EUROPE).

It also offers university degrees thanks to the agreement signed with the Universidad a Distancia de Madrid (UDIMA).

Staff and offices

ITAérea Aeronautical Business School has 6 national offices, 6 international offices and 9 commercial representations, all throughout 4 continents.

Training programs

600-hour - Master's degrees

1. MATSM - Master in Sustainable Air Transport Management

Delivered jointly with UNITAR (UN). E-learning.

Business and Aviation Management

2. MBAAM - Master of Business Administration in Aviation Management

E-learning.

Safety and Security

3. MAAS - Master in Airport and Aeronautical Safety Management

E-learning.

International Air Law

4. MIAL - Master in International Air Law

Focused on global legal frameworks governing the aviation industry. E-learning.

Advanced Air Mobility

5. MAAM - Master in Advanced Air Mobility

Co-delivered with the Advanced Air Mobility Institute. E-learning.

HR

120 hours

Management and Leadership

1. Course on Airport International Business Management (for managers). E-learning.

80 hours

Management and Leadership

2. Course on Airport Management. E-learning.

3. Course on Airport Infrastructure Management. E-learning.

Language and Communication

4. Superior University Course on Aviation English (delivered jointly with UDIMA). E-learning.

Safety and Security

5. Course on Aviation Safety and Security Management and Human Factors in the Implementation of the SMS. E-learning.

40 hours

Operations and Infrastructure

- 6. Course on Advanced Airport Operations. E-learning.
- 7. Course on Ground Support Equipment Management. E-learning.

Safety and Security

- 8. Course on Advanced Risk Assessment Techniques. E-learning.
- 9. Course on Emergency Response Planning and Execution. E-learning.

Human Factors and Leadership

- 10. Course on Behavioral Analysis for Airport Professionals. E-learning.
 - 11. Course on Leadership in Crisis Management. E-learning.
-

20 hours

Sustainability

- 12. Course on Sustainable Management of the Airports. E-learning.
- 13. Course on Aviation and the Environment: Managing Green Airports. E-learning.
- 14. Course on Renewable Energy Solutions for Airport Operations. E-learning.
- 15. Course on Climate Risk Assessment and Adaptation for Airports. E-learning.
- 16. Course on Circular Economy Practices in Airport Management. E-learning.

Safety and Security

- 17. Course on Obstacle Assessment. E-learning.
- 18. Course on Safety Assessment at Aerodromes. E-learning.
- 19. Course on Wildlife Strike Hazard Reduction. E-learning.
- 20. Course on Apron Safety and Management. E-learning.
- 21. Course on Aviation Safety and Security Management. E-learning.

Operations and Infrastructure

- 22. Course on Implementation and Provision of Apron Management Service. E-learning.
- 23. Course on Airport Operations: Hard Resources Management. E-learning.
- 24. Course on ORAT (Operational Readiness and Airport Transfer). E-learning.
- 25. Course on Runway, Taxiway, Apron Planning and Design (EASA CS & GM). E-learning.
- 26. Course on Runway, Taxiway, Apron Planning and Design (ICAO Annex 14). E-learning.
- 27. Course on Heliport Planning and Design (ICAO Annex 14 Volume 2 & EASA CS). E-learning.
- 28. Course on Airfield Pavement Inspections. E-learning.
- 29. Course on Aerodrome Certification. E-learning.
- 30. Course on Airport Operations. E-learning.
- 31. Course on Airport Master Planning. E-learning.
- 32. Course on Airport Environment Management. E-learning.
- 33. Course on Infrastructure Maintenance Planning for Airports. E-learning.

Marketing and Communication

- 34. Course on Airline-Airport Marketing and Sales – Strategies for a Global World. E-learning.
- 35. Course on Airport Social Media Marketing Strategy. E-learning.
- 36. Course on Marketing Analytics for Airport Managers. E-learning.

Human Factors and Leadership

- 37. Course on Human Factors for Airport Managers. E-learning.
- 38. Course on Accountable Managers, Airports. E-learning.
- 39. Course on Airport Leadership. E-learning.
- 40. Course on Introduction to Environment, Health, and Safety. E-learning.
- 41. Course on Job Aid Development. E-learning.
- 42. Course on Decision-Making Strategies for Aviation Leaders. E-learning.

Specialized Topics

- 43. Course on Air Traffic Flow Management for Airports. E-learning.
 - 44. Course on Passenger Experience Optimization. E-learning.
 - 45. Course on Noise Management and Control at Airports. E-learning.
 - 46. Course on Sustainable Catering Services for Airports. E-learning.
 - 47. Course on Disaster Recovery Planning for Airports. E-learning.
-

Newly Added Courses

- 48. Course on Emergency Evacuation Planning and Protocols for Airports. E-learning.
- 49. Course on Compliance with ICAO Environmental Standards for Airports. E-learning.
- 50. Course on Data-Driven Decision-Making in Airport Management. E-learning.

Human Resources

80 hours

Management and Leadership

- 1. Course on Airline Management. E-learning.

Language and Communication

- 2. Superior University Course on Aviation English (delivered jointly with UDIMA). E-learning.
- 3. Course on Aviation English for the Airport Industry. E-learning.

Safety and Security

- 4. Course on Aviation Safety and Security Management and Human Factors in the Implementation of the SMS. E-learning.

Specialized Topics

- 5. Course on Commercial Management and Traffic Demand Forecast Applied to the Airport Sector. E-learning.
-

40 hours

Operations and Infrastructure

- 6. Course on Advanced Airline Operations. E-learning.
- 7. Course on Ground Support Equipment Management for Airlines. E-learning.

Safety and Security

- 8. Course on Risk Mitigation Strategies for Airlines. E-learning.
-

20 hours

Sustainability

- 9. Course on Sustainable Management of the Airlines. E-learning.
- 10. Course on Introduction to Sustainable Aviation. E-learning.
- 11. Course on Fuel Efficiency and Sustainable Flight Operations. E-learning.

Safety and Security

- 12. Course on Dangerous Goods Awareness. E-learning.
- 13. Course on Basic Handling of Hazardous Substances. E-learning.
- 14. Course on Fatigue Risk Management Systems (FRMS) for Airlines. E-learning.
- 15. Course on Air Cargo, Live Animals, and Special Cargo. E-learning.
- 16. Course on Air Cargo and Handling. E-learning.
- 17. Course on Safety in Airline Ground Handling Operations. E-learning.
- 18. Course on Emergency Response Planning for Airlines. E-learning.

Operations and Infrastructure

- 19. Course on Airline Operations and Data Analytics. E-learning.
- 20. Course on Airline Operations Control (AOC) Advanced Procedures. E-learning.
- 21. Course on AI Applications in Airline Operations and Passenger Experience. E-learning.
- 22. Course on Inventory Management for Airlines. E-learning.
- 23. Course on Air Ticketing and Fares. E-learning.
- 24. Course on Basic Handling for Airlines. E-learning.
- 25. Course on Baggage Delivery Processes. E-learning.

Marketing and Communication

- 26. Course on Airline-Airport Marketing and Sales – Strategies for a Global World. E-learning.
 - 27. Course on Project Leadership, Management, and Communication. E-learning.
 - 28. Course on Effective Communication and Interpersonal Skills. E-learning.
 - 29. Course on Organizing and Planning for Airline Managers. E-learning.
-

Air Law and Regulatory Compliance

- 30. Course on Aviation Law for Managers: Understanding Global Aviation Business. E-learning.
- 31. Course on Compliance with Global Aviation Standards. E-learning.

New Additions

- 32. Course on Legal Frameworks for International Air Transport. E-learning.
 - 33. Course on ICAO Standards and Recommended Practices (SARPs). E-learning.
 - 34. Course on Airline Contracts and Liability Management. E-learning.
-

Human Factors

- 35. Course on Basic Human Factors. E-learning.
 - 36. Course on Human Factors in Aviation for Managers. E-learning.
 - 37. Course on Fundamentals of Conflict Resolution in the Aviation Sector. E-learning.
 - 38. Course on Team Resource Management. E-learning.
 - 39. Course on Building Resilient Teams in Airline Operations. E-learning.
 - 40. Course on Emotional Intelligence for Airline Leaders. E-learning.
-

Specialized Topics

- 41. Course on Revenue Management Strategy. E-learning.
 - 42. Course on Management of Aviation Quality and Service. E-learning.
 - 43. Course on ISO 14001/2015 EMS (Environmental Management System) for Aviation. E-learning.
 - 44. Course on Advanced Excel for the Aeronautical Sector. E-learning.
-

Operations and Sustainability

- 45. Course on Noise Management and Mitigation for Airlines. E-learning.
 - 46. Course on Enhancing Passenger Experience through Data and Analytics. E-learning.
 - 47. Course on Airline Route Development and Network Optimization. E-learning.
 - 48. Course on Airport-Airline Collaboration for Operational Excellence. E-learning.
 - 49. Course on Climate Adaptation Strategies for Airline Operations. E-learning.
-

Marketing and Strategy

- 50. Course on Digital Marketing Strategies for Airlines. E-learning.

SAFETY AND SECURITY

Executive staff

Officers

Technical

80 hours

Safety and Security

- 1. Course on Aviation Safety and Security Management and Human Factors in the Implementation of the SMS. E-learning.
-

50 hours

Safety and Security

- 2. Course on Airport Best Practices. E-learning.
-

24 hours

Civil Aviation

- 3. Course on Civil Aviation Management Programme. E-learning.
-

20 hours

Security Management

- 4. Course on Aviation Security Management. E-learning.
- 5. Course on Aviation Security Awareness. E-learning.
- 6. Course on Basic Aviation Security for Airport Personnel. E-learning.
- 7. Course on AVSEC (Aviation Security) Basic. E-learning.
- 8. Course on Advanced Airport Security (CAVSA/AVSEC). E-learning.
- 9. Course on Airport Security of Operational Unit (CSAUO/AVSEC). E-learning.

Safety Management Systems (SMS)

- 10. Course on Safety Management Systems (SMS). E-learning.
- 11. Course on SMS Auditing for Internal and External Stakeholders. E-learning.
- 12. Course on Operational Safety Management System (SMS). E-learning.

Regulatory Compliance

- 13. Course on State Safety Programme Implementation. E-learning.
- 14. Course on Resolution of Safety Issues. E-learning.
- 15. Course on Auditing Techniques and Best Practices. E-learning.
- 16. Course on Review of Auditing Findings and Corrective Actions. E-learning.
- 17. Course on Personnel Licensing for Regulators. E-learning.
- 18. Course on Air Operator Certification and Surveillance for Flight Operations Inspectors. E-learning.

Cabin Safety

- 19. Course on Cabin Safety Oversight. E-learning.
- 20. Course on ICAO Technical Instructions for the Safe Transport of Dangerous Goods by Air. E-learning.
- 21. Course on Investigation of Cabin Safety Aspects in Accidents and Incidents Workshop. E-learning.

Weather and Risk Management

- 22. Course on Aviation Weather Risk Management. E-learning.

Emerging Technologies and Security

- 23. Course on Use of Blockchain in Airline Operations and Security. E-learning.
- 24. Course on Cybersecurity for Airports. E-learning.

Geopolitics and Management

- 25. Course on The Geopolitics of Aviation. E-learning.

Specialized Topics

- 26. Course on ICAO Dangerous Goods Awareness. E-learning.
- 27. Course on Fatigue Risk Management Systems (FRMS). E-learning.
- 28. Course on Fire Safety in Aviation. E-learning.
- 29. Course on Hazardous Materials Handling and Compliance. E-learning.
- 30. Course on Passenger Safety Protocols in Critical Scenarios. E-learning.

Newly Added Courses

Advanced Security

- 31. Course on Airport Access Control Systems and Protocols. E-learning.
- 32. Course on Crisis Preparedness and Response in Aviation. E-learning.
- 33. Course on Drone Detection and Mitigation for Airports. E-learning.
- 34. Course on Quality Assurance in Aviation Security. E-learning.
- 35. Course on Advanced Security Screening Technologies. E-learning.
- 36. Course on Risk Management for Aviation Infrastructure. E-learning.
- 37. Course on Security Protocols for Cargo Operations. E-learning.
- 38. Course on Emergency Preparedness for Airport Teams. E-learning.
- 39. Course on Managing Security Breaches in Real-Time. E-learning.
- 40. Course on Security Training and Certification Standards. E-learning.
- 41. Course on Building a Resilient Security Culture in Aviation. E-learning.
- 42. Course on Integrated Safety and Security Systems for Airports. E-learning.
- 43. Course on Safety Auditing for Ground Operations. E-learning.
- 44. Course on Insider Threat Management in Aviation Security. E-learning.
- 45. Course on Security Operations Optimization. E-learning.
- 46. Course on Advanced Cargo Screening and Security. E-learning.
- 47. Course on Security Risk Assessment and Mitigation Planning. E-learning.
- 48. Course on Safe Handling of Lithium Batteries in Air Cargo. E-learning.
- 49. Course on Advanced Emergency Management for Large Airports. E-learning.
- 50. Course on Threat and Vulnerability Assessment for Airport Security. E-learning.

7. Course on Sustainable Management of Air Navigation. E-learning.
8. Course on Greener Flight Paths and Trajectory Optimization. E-learning.
9. Course on Sustainable Management of the Aeronautical Industry. E-learning.

Navigation and Operations

10. Course on Basic Concepts in Air Navigation Systems. E-learning.
11. Course on Security in Air Navigation and Air Traffic Control. E-learning.
12. Course on Aeronautical Communications. E-learning.
13. Course on Air Navigation Equipment. E-learning.
14. Course on Advanced Drone Operations and Integration with Airline Systems. E-learning.
15. Course on Integration of Drones into Airspace Management. E-learning.
16. Course on Performance-Based Navigation (PBN) Fundamentals. E-learning.
17. Course on Advanced Procedures for PBN Implementation. E-learning.

Emerging Technologies

18. Course on Artificial Intelligence in Air Traffic Control. E-learning.
19. Course on Use of Machine Learning in Air Traffic Flow Management. E-learning.

Human Factors

- 20. Course on Fatigue Awareness for ATM Managers. E-learning.
- 21. Course on Creative Leadership for Aeronautical Managers. E-learning.
- 22. Course on Organizing and Planning. E-learning.

Specialized Training

- 23. Course on ATCO On-the-Job Training Instructors (OJTI) Online. E-learning.
- 24. Course on ATCO Assessor Training. E-learning.
- 25. Course on On-the-Job Training Instructor (OJTI) Training. E-learning.
- 26. Course on Air Traffic Safety Electronics Personnel (ATSEP). E-learning.

Career Development

- 27. Careers in Aviation Workshop. E-learning.

Performance-Based Navigation (PBN)

- 28. Course on PBN Airspace Design and Optimization. E-learning.
 - 29. Course on Safety Oversight for PBN Operations. E-learning.
-

Additional Topics

Advanced Training

- 30. Course on Advanced Techniques in Air Traffic Control Systems. E-learning.
- 31. Course on Digital Twin Applications in ATM. E-learning.
- 32. Course on Integrated ATM Systems for NextGen Operations. E-learning.

Environmental and Safety

- 33. Course on Noise Management Strategies for Air Traffic Control. E-learning.
- 34. Course on Climate Adaptation in Airspace Management. E-learning.
- 35. Course on Risk Mitigation in ATM Operations. E-learning.

Technology Integration

- 36. Course on Blockchain Applications in Air Navigation. E-learning.
- 37. Course on AI-Powered Predictive Analytics for ATM. E-learning.
- 38. Course on Cloud-Based ATM Solutions. E-learning.

Leadership and Development

- 39. Course on Leadership Skills for Air Traffic Controllers. E-learning.
- 40. Course on Strategic Decision-Making in Air Navigation. E-learning.

Drone Integration

- 41. Course on Counter-Drone Strategies for Air Navigation. E-learning.
- 42. Course on UTM (Unmanned Traffic Management) Systems and Standards. E-learning.

Legal and Compliance

- 43. Course on Global Standards for Air Navigation Compliance. E-learning.
- 44. Course on Safety Oversight in ATM. E-learning.

Operational Excellence

- 45. Course on Data-Driven Optimization in ATM. E-learning.
- 46. Course on Scenario-Based Training for ATM Operations. E-learning.

Sustainability and Green Initiatives

- 47. Course on Carbon Neutral Pathways in Air Navigation. E-learning.

Technical Training

- 48. Course on Advanced Aeronautical Communication Systems. E-learning.
- 49. Course on Navigational Aids and Their Calibration. E-learning.

Technical Training

- 35. Course on Aerodynamic Principles in Aircraft Design. E-learning.
- 36. Course on Fuel Efficiency in Aeronautical Operations. E-learning.
- 37. Course on The Role of Avionics in Modern Aircraft. E-learning.

Market Trends

- 38. Course on Market Analysis for Aeronautical Products. E-learning.
- 39. Course on Revenue Management for Aeronautical Companies. E-learning.
- 40. Course on Trends in Aircraft Leasing and Financing. E-learning.

Career Development

- 41. Course on Professional Growth in the Aeronautical Industry. E-learning.
 - 42. Careers in Aviation Workshop. E-learning.
-

Advanced Air Mobility (AAM) and Vertiport Design - 20 hours each

- 43. Course on Vertiport Planning and Design Principles. E-learning.
 - 44. Course on AAM Vehicle Certification Standards. E-learning.
 - 45. Course on Infrastructure Challenges in Advanced Air Mobility. E-learning.
 - 46. Course on Electric Propulsion Systems for AAM Vehicles. E-learning.
 - 47. Course on Urban Integration Strategies for Vertiports. E-learning.
 - 48. Course on Community Engagement for AAM Operations. E-learning.
 - 49. Course on Weather Risk Management for Vertiports. E-learning.
 - 50. Course on Air Traffic Flow Integration for AAM Networks. E-learning.
-

Sustainability and Green Innovations - 20 hours each

- 51. Course on Carbon-Neutral Strategies for Aeronautical Manufacturing. E-learning.
 - 52. Course on Sustainable Aircraft Recycling Techniques. E-learning.
 - 53. Course on Renewable Energy Applications in Aeronautical Facilities. E-learning.
 - 54. Course on Lifecycle Emissions Analysis for Aircraft. E-learning.
 - 55. Course on Sustainable Aeronautical Supply Chain Management. E-learning.
 - 56. Course on Sustainable Aeronautical Certification Standards. E-learning.
 - 57. Course on Innovative Green Technologies for Aircraft Design. E-learning.
 - 58. Course on Eco-Friendly Airport Operations for Aeronautical Managers. E-learning.
-

Additional Topics - 20 hours each

Emerging Technologies

- 59. Course on Digital Twin Applications in Aeronautical Operations. E-learning.
- 60. Course on Advanced Simulation Tools for Aeronautical Testing. E-learning.

Operational Excellence

- 61. Course on Contingency Planning for Aeronautical Production Lines. E-learning.
- 62. Course on Enhancing Supply Chain Resilience in Aeronautical Manufacturing. E-learning.

Global Perspectives

- 63. Course on Emerging Markets and Opportunities in Aeronautical Industry. E-learning.
- 64. Course on Strategies for Expanding Aeronautical Market Presence. E-learning.

AAM-Specific Challenges

- 65. Course on Energy Infrastructure Requirements for AAM Networks. E-learning.
- 66. Course on Policy and Regulatory Frameworks for AAM Integration. E-learning.

International alliances

ITAérea Aeronautical Business School, CIFAL Mérida (International Training Centre for Authorities and Leaders in Mérida) and UNITAR (the United Nations Institute for Training and Research) signed a trilateral agreement in November 2017 at the UN Palace of Nations in Geneva. The goal of this agreement is to develop a comprehensive training on air transport by fulfilling the sustainable development goals of the UN 2030 Agenda.

UNITAR joined a partnership whose historical background is a clear proof of the strong and fruitful relationship between ITAérea and CIFAL Mérida. The training programme for managers of the air transport sector is this partnership's keystone since thanks to the agreement signed in 2013, 1808 professionals of the airport sector across Latin America have been trained so far.

On November 7, 2023 in MIAMI, **ACI WORLD** awarded **ITAérea Aeronautical Business School** with the recognition plaque as an **accredited training center of the ACI WORLD network**.

The accreditation of ITAérea as a training partner of ACI WORLD represents the recognition and enhancement of the School's good work in accordance with the highest quality standards in airport training, using the latest technologies and in line with the best practices of airport and aeronautical management.

Given the international nature of ACI WORLD and ITAérea, there are many synergies that these two institutions can take advantage of for mutual benefit. For its part, ITAérea provides training in Portuguese, Spanish and English throughout the world and ACI WORLD is the institution that groups and represents all the airports in the world, these being close to 2,000 in 176 countries.

With this global alliance, ITAérea has not only taken another step in its strategic projection, but also provides all its students, present and future, with a package of resources, international contacts and opportunities that will help enhance their careers at the highest level.

ITAérea Aeronautical Business School World Business Partner of **Airports Council International Latin America - Caribbean**.

ACI-LAC is the Latin America & Caribbean region of Airports Council International, the only worldwide professional association of airport operators. ACI-LAC represents over 275 airports in 37 countries and territories. The 71 member airports handle 95% of commercial air traffic in Latin America & Caribbean, welcoming over 570 million passengers, 5.4 million tonnes of freight and more than 9.0 million aircraft movements each year.

The signing ceremony for the extension of the collaboration agreement between ITAérea Business School, UNITAR and CIFAL Mérida which was signed in Geneva took place on 16th May 2018 at the ITAérea headquarters in Madrid. 16 CIFAL centres in El Salvador, Quito, Atlanta, Curitiba, Argentina, Algeria, Madrid, Zurich, Belgium, Poland, South Korea, Shanghai, Philippines and Australia will have access to ITAérea's online training and will be able to certify the skills acquired and therefore, the industry's sustainable growth will be supported and every sector involved will benefit from it.

ITAérea is also World Business Partner of the European Region of Airports Council International (ACI-EUROPE), representing over 500 airports in 55 countries. Their members facilitate over 90% of commercial air traffic in Europe. Air transport supports 13.5 million jobs, generating €886 billion in European economic activity (4.4% of GDP). In response to the Climate Emergency, in June 2019 their members committed to achieving Net Zero carbon emissions for operations under their control by 2050, without offsetting. Based in Brussels, they lead and serve the European airport industry and maintain strong links with other ACI regions throughout the world.
