# GLOBAL AVIATION PROFESSIONAL PROGRAMME

ICAO

**EMBRY-RIDDLE**  
Aeronautical University

## Global Aviation Professional Programme

Introducing the Global Aviation Professional Programme (GAPP), a unique global initiative designed specifically for aviation professionals and civil aviation regulators. This programme has been developed in collaboration with prestigious institutions and organizations, such as the **International Civil Aviation Organization (ICAO)**, **Embry-Riddle Aeronautical University (ERAU)**, **Korea Aerospace University (KAU)**, and **Incheon International Airport Corporation (IIAC)**.

The primary objective of this joint professional programme is to equip senior and mid-level aviation managers, along with civil aviation regulators, with comprehensive professional training programme. Participants will gain a profound understanding of the relevant ICAO Standards and Recommended Practices (SARPs), while simultaneously acquiring the necessary competencies to proficiently address various aviation-related challenges. By instilling these skills, the programme aims to ensure effective management of aviation issues and the consistent implementation of industry best practices.

## Programme Structure

**Duration:** Two years (24 months)

### Condition for Graduation:

- Completion of all seven (7) mandatory courses
- Completion of two (2) elective courses among seven elective courses

### Detailed course list
