

## Feature Programs

### ICAO-KAU Joint Academic Program

KAU offers ICAO-Certified courses to ensure a high-level of quality and global standardization in aviation education and training programs.

### Global Aerospace Challenge Programs

This program inspires and cultivates a global workforce for aerospace innovation by increasing access to education, accelerating skills development. This learning stems from a bonding relationship between global aviation companies such as Boeing, Airbus, and Lockheed Martin with KAU.

## Buddy & Mentoring/Tutoring Program

### Buddy Program

International students can apply for the Buddy Program before coming to Korea. In the program, each student is assigned one KAU student who will assist the international students to adjust to the new culture and environment in Korea. International students can also participate in various events and activities that provide opportunities to build friendship and networks.

### Mentoring/Tutoring Program

International students who might experience difficulties with courses in their major can request assistance from the international office or their department office. A KAU student will be arranged to meet each student one-to-one or in a group setting whichever is more convenient.

## Korean Language Education Center

Curriculum	Tuition	Qualification
4 semesters per yr 9 weeks (180hrs) 4 hrs per day	KRW 1,300,000 per semester	High school graduates
